

CERTIFICATE OF REGISTRATION

The management system of certificate number **251971**

eAsset Solutions, LLC

427 N. Maple Avenue, Falls Church, VA, 22046, USA

has been assessed and certified as meeting the requirements of:

The Sustainable Electronics Reuse & Recycling (R2) Standard v3

Downstream Vendor Management, Logical and Physical Data Sanitization,
Testing and Repairing, Specialty Electronics Reuse and Materials Recovery of Used
Electronics.

This R2 Facility performs the following applicable R2 Process Requirements at this location(s) and has been audited to the requirements for each as identified.

Appendix A - Downstream Recycling Chain
Appendix B - Data Sanitization - Logical and Physical
Appendix C - Test and Repair - Test and Repair
Appendix D - Specialty Electronics Reuse
Appendix E - Materials Recovery

Further clarifications regarding the scope of this certificate and the applicability of requirements may be obtained by consulting the certifier.

The certification referenced above is accomplished pursuant to SERI's R2 Code of Practices through an audit of a sample of the certificate holder's facilities and/or activities within the limited written scope appearing on this certificate. Certification is not a comprehensive validation or verification of all conditions. The R2v3 Standard is offered 'AS-IS' and without warranty, and any reliance otherwise, by the certificate holder or any third party, is expressly disclaimed by SERI. The use, display, and reference to the R2v3 Certification Mark printed on this certificate is governed by license agreement(s) entered between the certificate holder and SERI. Certificate authenticity and validity can be verified at <https://r2directory.org>.

Initial certification: Thursday, October 23, 2014

Current cycle start: Thursday, March 13, 2025

Latest issue: Tuesday, March 11, 2025

Expiry date: Sunday, March 12, 2028
Subject to annual assessments.

Certification Structure: Campus

Authorized by

Certification is conditional on maintaining the required performance standards throughout the certified period of registration.
Amtivo (USA) Inc, 7502 W. 80th Avenue, STE. 225 Arvada, Colorado 80003-2128, USA.

Expiry Date: **Sunday, March 12, 2028**

Certificate Number **251971**

Locations covered under certification:

- **eAsset Solutions, LLC (Main Processing Location)**
427 N. Maple Avenue, Falls Church, VA 22046 USA,
- Downstream Vendor Management, Logical and Physical Data Sanitization, Testing and Repairing of used electronics.
Appendix A - Downstream Recycling Chain
Appendix B - Data Sanitization - Logical and Physical
Appendix C - Test and Repair - Test and Repair
- **eAsset Solutions, LLC (Campus Site)**
2816-A Fairfax Dr., Falls Church, Virginia 22042 USA
- Downstream Vendor Management, Logical Data Sanitization, Testing, Specialty Electronics and Materials Recovery of used electronics.
Appendix A - Downstream Recycling Chain
Appendix B - Data Sanitization - Logical Only
Appendix C - Test and Repair - Test Only
Appendix D - Specialty Electronics Reuse
Appendix E - Materials Recovery

Quality, Environmental, Health and Safety Policy

eAsset Solutions is committed to managing used and end-of-life electronic equipment based on a reuse, refurbishment, recovery, and disposal hierarchy, including on-site and downstream materials management throughout the recycling chain. This process is done in a manner to protect the environment, worker health and safety, our clients, and our community.

As part of this Quality, Environmental, Health and Safety Policy, eAsset Solutions is committed to:

- comply with applicable legal and other stakeholder requirements relative to the quality, environmental and health and safety aspects of our business.
- meet customer needs and a high-level of customer satisfaction.
- prevention of pollution and prevention of injury and ill health.
- managing Focus Materials throughout the recycling chain to final disposition with due diligence to protect our environment.
- providing a framework for setting and reviewing quality, environmental, health and safety goals.
- continuous improvement achieved through monitoring of goals and rigorous evaluation of our management system.
- educating employees about the environmental aspects, risks, quality standards of their job positions, and how to conduct facility operations safely and effectively.
- data security and protecting our clients' assets, as detailed in the Data Security Policy.
- communicating and reinforcing this policy throughout our company, to all persons working for or on behalf of the organization as well as, to our customers, our suppliers and to the public.

Hierarchy of Responsible Management Policy

eAsset Solutions is committed to manage used and end-of-life electronic equipment, components, and materials – with respect to off-site and on-site activities, as well as the selection of downstream vendors according to the following policy:

- 1) Reuse – For all equipment and components that are capable of reuse, eAsset Solutions shall direct the items to a Reuse process meeting the requirements of the R2 Standard. However, equipment and components that are not legal to sell such as lost/stolen, counterfeit, or recalled equipment shall not be reused and instead be directed to Materials Recovery.
- 2) Materials Recovery - For equipment and components that are not capable of reuse, eAsset Solutions shall direct the items to a Materials Recovery process meeting the requirements of the R2 Standard for recycling.
- 3) Disposal –
 - a. Focus Materials (FMs) - Energy recovery, incineration, or land disposal shall not be used as a management strategy for FMs or equipment and components containing FMs, unless applicable law requires the use of a specific technology (e.g., hazardous waste landfill or incineration on PCBs). However, if documented extreme and rare circumstances beyond the control of eAsset Solutions disrupts its normal management of an FM, it may consider using these technologies to the extent allowed under applicable law, until normal management is again possible.
 - b. Non-Focus Materials - Only when all opportunities for reuse or materials recovery have been exhausted and there are no technically viable recycling processes available, eAsset Solutions may direct material to the most environmentally-beneficial option of energy recovery, incineration, or land disposal.
